Profile

Dynamic Full Stack Developer specializing in UX/UI design, proficient in C#, .NET, Python, React, NodeJS, and AngularJS. Expert in Figma, Sketch, Adobe tools, and Google UX Certified. Demonstrated experience in user-centered design, user testing, and agile methodologies. Collaborative team player with strong analytical thinking and problem-solving abilities. Committed to delivering high-quality, user-focused solutions, fostering innovation and seamless collaboration in fast-paced environments.

Skills

- Python, Java, C#, MVC ASP, .NET, Android, IOS, PHP
- Database Management: MySQL, MongoDB
- HTML, CSS, Bootstrap, JavaScript, jQuery, Angular, React
- Figma, Sketch, Adobe Photoshop, Adobe XD, Adobe Illustrator
- User testing, lab, and hands-on field study experience
- Google UX Certification
- Microsoft Office, Excel, PowerPoint, Keynote, and multi-page document layouts

Highlights of Qualifications

Professional Profile: Full Stack Developer with Expert UX/UI Design Skills

- Highly skilled Full Stack Developer with a strong focus on user experience and interface design. I bring extensive technical expertise and creativity to the table, ensuring seamless collaboration between technology and user-centered design principles. My background encompasses a wide range of essential skills and qualities necessary for success in full stack development projects.

Technical Proficiency:

- Proficient in a variety of programming languages, including C#, .NET, and Python, allowing for versatile backend development.
- Expertise in front-end technologies such as React, NodeJS, and AngularJS, with a proven ability to design intuitive user interfaces.
- Experienced with diverse development tools and databases, including MySQL, MongoDB, and Redis, contributing significantly to the success of various projects and APIs.
- Proficiency in Linux (Ubuntu) operating system, ensuring seamless operation across diverse platforms.

UX/UI Design Expertise:

- Extensive experience using Figma, Sketch, Adobe Photoshop, Adobe XD, and Adobe Illustrator for designing visually appealing and user-friendly interfaces.
- Strong practitioner of design thinking and a human-centered approach, ensuring solutions are intuitive, empathetic, and aligned with user needs.
- Proven ability to enhance the end-to-end design process, from initial concept ideation to final implementation and iteration, integrating design thinking and agile methodologies into development projects.
- Deep understanding of design principles and a human-centered approach to UI/UX design, derived from a strong background in visual arts.

User-Centered Approach:

- Hands-on experience in conducting user testing, lab research, and field studies, gathering valuable insights to improve user experience.
- Possession of Google UX Certification, demonstrating a profound understanding of user-centered design principles and methodologies.
- Agile and spontaneous empathy, enabling effective communication and collaboration with diverse stakeholders, including clients, development teams, and users.
- Adept at empathetic communication and effective stakeholder engagement, enabling smooth collaboration with clients and team members.

Collaborative Problem Solver:

- Highly collaborative team player with exceptional problem-solving and analytical thinking skills, capable of tackling complex challenges and finding innovative solutions.
- Demonstrated ability to collaborate effectively with development teams, contributing significantly to the success of various projects and APIs.
- Strong analytical thinking skills, coupled with problem-solving abilities, ensuring optimal solutions in fast paced environments.
- I am dedicated to delivering high-quality, user-focused solutions and thrive in collaborative environments where innovative thinking and technical expertise converge seamlessly.

Work Experience

Content Management, IT World Canada

April 2023 – July 2023

- Designed, implemented, and monitored web pages, news layouts, and ads.
- Successfully multitasked across multiple functions and roles to meet deadlines and exceed organizational expectations.
- Collaborated closely with the news team to verify, load, and launch news content.
- Proficiently coded websites using HTML and CSS, Python languages.

Full Stack Developer, Brandm3dia Group

April 2023 – July 2023

- Packed customer orders with accuracy and diligence to ensure they arrive in perfect condition.
- Utilized Node.js and React to develop and maintain web applications.
- Implemented API integrations to enhance functionality and data exchange.
- Managed and maintained a MySQL database.
- Contributed to the development of the Pay Kiosk project.
- Identified and resolved bugs to ensure optimal application performance.

Freelancer, Emonet

2021 – 2022

- Developed the company website using JavaScript, HTML, and CSS.
- Multitasked across multiple functions and roles to meet deadlines and organizational expectations.
- Applied emerging technologies to update and maintain site applicability.
- Collaborated with marketing, representing a web team, to establish project goals, projections, and milestones.
- Designed, implemented, and monitored web pages, plugins, and functionality for continuous improvement.
- Coded websites using HTML, CSS, JavaScript, and jQuery languages.
- Generated web hosting presence to accommodate specified needs and maintained files on account. Identified conflicting business practices and integration issues to suggest alternative solutions.
